

Nissan Intelligent Mobility moves you one step ahead. In cars that feel like an extension of you, helping you see more and sense more, reacting with you, and sometimes even for you. Nissan Intelligent Mobility is about a better future – moving us to a world that's safer, more sustainable, and exciting.

A LEGEND is not built on a lap time. Or a 0-60 number. it's built on obsessive attention to detail and a radical belief that a true supercar delivers performance in real-world conditions for anyone, anywhere, anytime. Perfectly refined yet brilliantly capable, in the right hands it can turn the automotive world on its head. The new Nissan GT-R: The ULTIMATE EVERYDAY SUPERCAR.

SURROUNDED BY STYLE

There is mastery in every detail in the GT-R. Everything you see and touch is crafted with the highest level of care and attention, whether it is an air vent designed to operate flawlessly for years, or a switch that is subtly etched to enhance its feel. In the new GT-R, luxury and performance go hand-in-hand. The redesigned front seats are lighter than their predecessors as well as being refined for more comfort and support.

High Resolution 8" Touch ScreenCompletely redesigned for the new GT-R, the new 8" touchscreen puts all the information you need in a single location, including audio, navigation and the driver-configurable Multi-Function Display system.

Three-mode Setup System
For road, track and almost anything in between:
GT-R's three-mode system features three switches to allow on-the-move adjustment of the transmission, suspension and Vehicle Dynamic Control. Supercar performance with amazing flexibility - at the flick of a switch.

Rotary ControlThe rotary control on the centre console lets you control key functions through the 8" touchscreen. Just rotate the dial or push it to the left or right to scroll through all the menus and easily select the option you require.

Erasing The Line Where The Driver Ends And The GT-R Begins

Special attention to detail makes the Nissan GT-R feel instantly familiar. The number of switches on the dashboard has been reduced from twenty seven to eleven, simplifying the layout. The controls are easy to access, simple to use and intuitively designed to maximise the pure enjoyment of driving.

GT-R T-spec

To pursue is the ultimate driving pleasure, that is the GT-R's never-changing concept. In order to make that a reality, we created a balance of two concepts to form the legendary GT-R. Gran Turismo (GT) creates a sophisticated & intuitive driving experience that allows you to maneuver comfortably anywhere you go, while R is the performance element that gives you the excitement of driving at overwhelming speeds, which Nissan derived from racing technology.

NISSAN

Nissan challenged conventions at every point of the Nissan GT-R's development, and we continued this pursuit of excellence and for thrilling driving experiences with this premium supercar. In 2021, an evolution begins with T-spec, inspired by ideas around being a trend setter and traction master. These are both deeply related to the origins of early GT-R iterations. It is truly a supercar that sculpts the wind with its precision mechanics and

aerodynamic alchemy. The GT-R T-spec and GT-R PREMIUM LUXURY usher in a new era of unmatched supercar engineering that inspires powerful driving confidence & exhilaration.

THE EVOLUTION NEVER STOPS

Anytime, Anywhere

The GT-R combines massive performance with the refinement of a true Grand Touring machine. The suspension filters out bumps and noise while still telling you everything you need to know. Steering effort is reduced at lower speeds for easier in-town manoeuvring, while still delivering the precision you want. It all adds up to giving you the feeling of absolute confidence as you charge out of a corner with 555 PS and supreme control at your fingertips.

The Nissan GT-R's ground-hugging aerodynamics and powerful brakes allow it to carry speed much later into a corner. But the real key to its speed is the all-wheel drive ability to put the power down much sooner in a corner. Many powerful rear-wheel drive cars usually require the driver to wait untill they exit the corner before applying the power to avoid upsetting the balance of the car. In contrast, the GT-R can power out of the corner sooner and faster.

Dynamic Balance

Some consider a static 50/50 weight distribution to be perfect for Handiling. However, Nissan engineers have discovered that a 54front/46 rear static ratio is ideal. When under hard acceleration, the weight distribution shifts rearward and becomes an approximate 50/50 balance. This translates into enhanced tyre contact for better acceleration, quicker corner and the sublime handling feel that the GT-R is renowned for.

GT-R T-spec

Change Gear in Just 0.15 Seconds

The longer a gear change takes, the less time power is being put onto the road. So for maximum acceleration, the GT-R's paddle-shift six-speed sequential dual-clutch transmission performs gear changes in just 0.15 seconds when in R-Mode - almost as fast as a blink of an eye.

Two clutches, no clutch pedal. The Nissan GT-R's 6-speed dual-clutch transmission shifts incredibly quickly. Inside the transmission, there are separate clutches for the odd (1st, 3rd, 5th) and even (2nd, 4th, 6th) gears. When the car is in an odd-numbered gear, the adjacent even-numbered gear is "pre-selected" – ready to make the shift immediately. The transmission is so smart, it even "blips" the throttle on downshifts to match rpm, for smoother gear changes.

GT-R T-spec

Two concepts of T-spec that carry out the further evolution.

"Trend Setter" and "Traction Master". The further evolution of T-spec is by returning to the first concept of the GT-R development in early 2000. Here, we would like to introduce the GT-R

Standard equipped with exclusive carbon ceramic brake.

First to be mentioned is the exclusive carbon ceramic brake (NCCB: Nissan Carbon Ceramic Brake), which comes as standard equipment. This system, which uses lightweight and excellent heat-resistant carbon ceramic material for the brake rotor, provides overwhelming braking power and excellent controllability not only in high-load conditions but also in daily use. In addition, a carbon fiber rear spoiler (with LED high-mount stop lamp), which weighs about half of a ordinary resin part, also comes as standard equipment. Furthermore, a special engine cover and a special badge (front and rear) exclusively for T-spec are attached. It raises the further joy of owning a T-spec.

The special setting is used in the suspension with the special exterior design.

GT-R T-spec is pursuing a new era of GT-R that has both "flexible and high-quality driving" and "fun to operate at will". By adopting a special carbon ceramic brake and a stylish and lightweight special RAYS aluminum forged wheel (bronze), the suspension is set, exclusively, by taking advantage of the weight reduction of the unsprung mass. And when combined with the high rigid tires by enlarge the wheel rim width, it achieves light and smooth handling.

Lighter weight for even more enjoyment of driving.

Special equipment for GT-R T-spec
-Special carbon ceramic brakes
(NCCB: Nissan Carbon Ceramic Brake)
-Carbon fiber rear spoiler
(With LED high-mount stop lamp)
-Special engine cover and special badge
(Front and Rear)
-Special equipment for GT-R T-spec
-Special interior exclusively for GT-R T-spec
-Exclusive kick plate (with emblem)
-Exclusive RAYS aluminum forged wheels (bronze)

Zone body concept	•	•
LED high mount stop lamp	•	•

We can ensure your satisfaction by our exclusive dealership for Nissan High Performance Center and high-quality aftersales service.

Customer Promise

1. You can trust we will satisfy you.

We offer a warranty service and spare part quarantee for kilometers. We offer a warranty service and spare part guarantee for **3-years or 100,000 kilometers.** We will provide a courtesy car or cover the cost of a rental car or taxi

2. You can trust we will wash and vacuum the vehicle before returning it to you.

If this is not done, we will give you a coupon for a free wash and vacuum valid for 90 days.

3. You can trust we will be there with you.

we offer a 3-years complimentary membership 24-hour roadside assistance and a 24-hour call center at 02-305-8432
