Front Door Multifunctional Storage Pocket

Active Safety-ABS+EBD

With ABS+EBD

Without ABS+EBD

Passive Safety - High-Strength Body + Anti-Collision Steel Beam

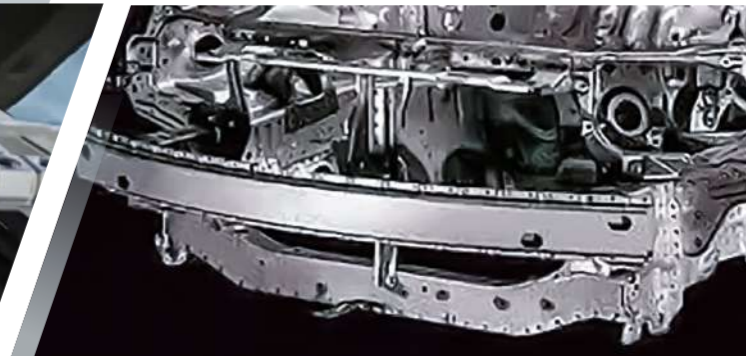

- The body is supported by structural and material design to provide dual safety guarantees, ensuring overall safety and stability
- Large amounts of 3H high-strength steel are used in the body, ensuring the weight reduction while increasing the strength
- In the front of the body, high-rigidity anti-collision steel beams are used on the door side, reducing the damage to the body caused by collisions and ensuring the safety of occupants

Anti-Collision Steel Beam in Door

High-Strength Body

Anti-Collision Steel Beam in Front

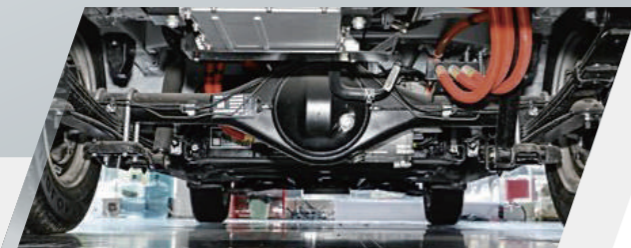

Auxiliary Safety - Reversing Camera

• HD display of reversing assist image quickly identifies obstacles behind, making parking easy and controllable

Rear Reversing Radar

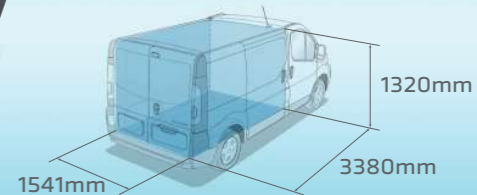

• Detection distance 3.5M

4 steel leaf springs in rear + Load-bearing rear axle, with a load capacity up to 1.2T

Cargo box capacity reach up to 7m³

Interior dimensions of flat-roof cargo model are 3380×1541×1320 (mm)

Model	Passenger Transport
Overall Dimensions (mm)	5320×1695×2280
Wheelbase (mm)	3050
GVW (kg)	3400
Seating Capacity	14
Max. Speed (km/h)	100
Max. Gradability (%)	20
Min. Turning Radius (m)	6.25
Driving Range WLTP (km)	195
Battery Type	CATL LFP
Battery Capacity (kWh)	50.23
Voltage (V)	334.88
AC Charging Power (kW)	6.6
AC/DC Charging Time (h) SOC 20% -80%	DC: 0.6 / AC: 5
Motor Type	PMSM
