9ff
FAHRZEUGTECHNIK GMBH

High technology for the maximum performance

9ff is the name for technically challenging individualization of Porsche vehicles.

The 9ff Fahrzeugtechnik GmbH was formed in 2001 in Dortmund to put up with passion and engagement a completely independent program.

During years of intensive development work and close co-operation of well-known automotive suppliers a complete tuning program with the highest technical demand for the current Porsche models developed which is available with TÜV and guarantee.

Have fun building your dreams!

On the following pages you find an overview of several products which are available for the different types of vehicles. Here the range goes from outside mirror to performance enhancement to 910 HP.

You will definitely find what you're looking for!
