

RANGE ROVER EVOQUE

ABOVE AND BEYOND

DESIGN

With its sporty, dynamic profile, Range Rover Evoque creates a new class it can call its own. It offers a new interpretation of classic Range Rover design cues including the signature clamshell bonnet, the floating roof and the prepared for-anything stance, including short body overhangs both front and rear. There's a new, dramatic rising beltline – a muscular shoulder runs the length of the vehicle – and a unique, distinctly athletic taper to the roofline which is emphasised by the black pillars. It is unmistakably a Range Rover with the bold horizontal graphic that is created by the perforated two-bar grille and distinctive headlamps.

Superbly designed. Carefully created by Land Rover designers to give more opportunity for individual expression and to make every journey more personal. It is the true Range Rover experience on a compact scale.

Range Rover Evoque is available in two distinct body styles.

RANGE ROVER EVOQUE
The five-door version, with its breathtaking contemporary kinetic design and superb accessibility to suit specific life-style needs.

RANGE ROVER EVOQUE COUPÉ
The compact premium crossover, with its sleek individualistic design. A new interpretation of classic Range Rover design cues with a dynamic profile and powerful stance.

ALL CONDITIONS

Like every Land Rover vehicle, Range Rover Evoque optimises performance and capability in all on and off-road conditions. It does this by employing a suite of innovative technologies including Terrain Response®, which adapts Range Rover Evoque's engine, transmission and electronic systems to maximise drivability, comfort and traction.

TECHNOLOGY

Cutting-edge technologies include: Land Rover patented Hill Descent Control (HDC) which assists with controlled descents of difficult slopes by maintaining a desired speed and applying braking separately to each wheel; Gradient Release Control (GRC) which is designed to prevent the vehicle 'running away' on a steep incline when the driver releases the brake; and Hill Start Assist which is designed to prevent roll back after a hill start.

There is also Dynamic Stability Control (DSC). Designed to correct over and under-steer, DSC interacts with the engine and brakes to help maintain stability. Electronic Traction Control (ETC) senses when wheel slip is occurring and uses the braking system to minimise wheel spin. Roll Stability Control (RSC) detects critical levels of roll and applies braking to increase the turn radius to help reduce the likelihood of a rollover.

There are four Terrain Response® settings:

-  GENERAL DRIVING
-  GRASS/GRAVEL/SNOW
-  MUD & RUTS
-  SAND

PERFORMANCE

With its lightweight and more compact footprint, Range Rover Evoque offers the enthusiast driver quicker responses and greater agility. Available on Prestige and Dynamic models, Adaptive Dynamics with advanced MagneRide™ monitors vehicle movements at least 1,000 times per second. It reacts to driver or road inputs to give greater control and minimise body roll, adding to the feeling of engagement and the sense of a taut, sporting ride. The system will even sense off-road conditions, and optimise damping accordingly.

2.2 LITRE SD4 TURBO DIESEL ENGINES

The latest 2.2 litre turbo diesel, SD4 (190PS), delivers superb torque, responsive performance and impressive refinement. The engine provides power on demand, a very broad torque curve and can be specified with either six-speed automatic or six-speed manual transmissions. Diesel vehicles with the manual transmission feature an intelligent Stop/Start system to reduce the fuel consumption of this engine by up to a further eight percent. This works by automatically shutting down the engine when it is not required, for instance at traffic lights, then re-starts the engine as soon as the clutch is released.

2.0 LITRE Si4 PETROL ENGINE

The Si4 petrol engine is a 2.0 litre all-aluminium unit with the latest direct-injection technology, advanced turbocharging and twin independent variable valve timing to help lower fuel consumption and CO₂ emissions to 199g/km. The engine is fitted with a six-speed automatic transmission that has been engineered to improve fuel economy and that features Drive Select, an advanced rotary gearshift with steering wheel mounted paddle controls to enhance the sporty driving experience. It also delivers a rich, powerful engine sound during acceleration.

LUXURY FINISHES

The same ethos of luxury, quality and attention to detail that goes into every other, larger Range Rover. The same ethos is behind the materials: the fine leathers, the authentic metal and real wood finishers, and innovative recycled materials. Whichever Range Rover Evoque you choose, it's a true Range Rover.

The Driver Information Display's five inch full colour screen supplements the eight inch Touch-screen. It is conveniently located, directly under the driver's forward line of sight between the two instrument dials, and presents primary vehicle information such as temperature and fuel levels, Terrain Response® settings as well as turn-by-turn navigation information.

SAFETY AND SUSTAINABILITY

Range Rover Evoque is the lightest and most efficient Range Rover ever. Key components throughout the vehicle, including an aluminium bonnet and roof and a magnesium cross car beam, enhance the vehicle’s sustainability credentials and help improve fuel economy as well as providing strength.

Range Rover Evoque was awarded a maximum five-star rating in the prestigious Euro NCAP safety tests. The front fenders and tailgate assembly are constructed from composite materials – materials made from two, or more, distinct substances whose differing properties (lightness and strength, for example) complement one another

PURE
The purest expression of the Range Rover Evoque design form and intent.

PRESTIGE
The ultimate in Range Rover Evoque luxury with a distinct exterior design and an opportunity for greater individuality for the interior.

DYNAMIC
The boldest expression of Range Rover Evoque with sports interior themes and Gloss Black detailing.

SPECIFICATION

Wheelbase 2,660mm
Overall length 4,355mm/4,365mm†

Wheelbase 2,660mm
Overall length 4,355mm/4,365mm†

A Approach Angle 25°/19°†
B Ramp Angle 22°
C Departure Angle 33°/30°†

WADING DEPTH
Maximum wading depth 500mm

TURNING CIRCLE
Kerb-to-kerb 11.3m
Turns lock-to-lock 2.47

LUGGAGE CAPACITY
Rear seats upright
Height 840mm*/870mm** Width 1,090mm
Loadspace volume 550 litres*575 litres**
Loadspace width between arches 1,000mm

Rear seats forward
Length 1,580m Width 1,090mm
Loadspace volume 1,350 litres*/1,445 litres**
Loadspace width between arches 1,000mm
Maximum box size (width x height)
900mm x 620mm*/900mm x 625mm**

TECH PACKS

PURE Tech Pack (P1*)

- Seats - PURE Grained Leather, manual driver's adjustment including recline, electric height and manual passenger's recline (6/4 way).
- Seats - PURE Grained Leather, electric driver adjustment including recline, height and electric passenger's recline (6/4 way) with hidden driver & passenger memory
- Rear seat centre armrest with 2 cupholders (5 doors only)
- Carpet mats with edgling
- Interior mood lighting - customer configurable
- Audio System - 380 watt Meridian Sound System with radio and single slot CD player, MP3 disc and file compatibility, subwoofer and 10 speakers
- 8" high resolution touch-screen
- Audio connectivity system
- Bluetooth® telephone connectivity plus streamed audio
- Front bumper blade
- 18" Alloy Style 2 - sparkle silver (235/60)

DYNAMIC & PRESTIGE Tech Pack (P2*)

- Climate control - automatic with air filtration and air quality sensing for automatic recirculation
- HDD Premium navigation system, includes 4x4 information & hard disk drive audio server (10 CD/ DVD storage and play)
- Headlamps - Powerwash
- Tailgate - Powered electrical tailgate (Open & Close)
- Illuminated tread plates
- Loadspace stowage rails
- Parking aid - Front
- Parking aid - Rear camera including hitching guidance

DYNAMIC Plus Pack (P3*)

- Seats - DYNAMIC PLUS Oxford Leather, electric driver & passenger adjustment including recline, height, tilt, lumbar support and memory (8/8 way)
- Seats - Heated, front
- Ebony headliner

	Remark
	P1 - available for PURE
	P2 - available for PRESTIGE and DYNAMIC
	P3 - available for DYNAMIC
