REXTON

New Face, New Heart

The Rexton W retains true to the brand identity, while new, upgraded elements maximize the pleasure and value that the superb SUV delivers. The "W" in the name stands for "work of art" and "world class", underscoring the modern and sophisticated design concept.

NEW FACE OF MODERN REFINEMENT AND LUXURY

SUV ruggedness made over in a modern, sophisticated style

The Rexton W greets you with updated grille and projection headlamps reconfigured to resemble the eyes of an eagle. The hood character line adds fullness to the distinctive, aggressive look up front, while along the sides, the stainless steel beltline and side sept chrome moulding bring a well balanced flow from the front fender to the rear quarter.

NEW AESTHETICS FOR THE DRIVER

A more pleasant driving experience all around

The feeling of luxury is immediate as you enter the cabin, starting with the jet black interior complemented by metallic-tan trim. That feeling only grows stronger as you discover all the extras at your fingertips. The driver's seat adjusts eight ways, and the settings for individual drivers can be recalled with a push of a button. Stereo system operation is hands-free, and a power jack on the upper dash accommodates navigation systems and sweet pleasure. Wherever and however you're going, you'll keep occupants in comfort on every stop.

02 Power seats in front

01 LED blade fade dimmer
04 Heated seats front & back

02 Driver's seat with memory function
03 CD player with MP3, Bluetooth

NEW WORLD IN SUMPTUOUS BEIGE

A different kind of look and feel

The beige interior package is designed for car owners who enjoy the extraordinary. The ambience of the high-quality materials provide a special kind of comfort inside the cabin. A luxurious electric console trimmed with silver paint and chrome adds a metallic feel to the modern instrument panel and helps to unify the system components.

04_Beige front door trim

More flexibility for more value

The Proton X5 represents the height of practicality, allowing you to do more and carry more. The seats can be configured multiple ways for maximum utilization of the roomy interior. The roof rack is suitable for carrying bicycles and the other bag and baby items you need on outdoor excursions.

UTILITY MULTIPLIED

MORE ENGINES, PERFECT CHOICES

Performance-proven power plants

Right-hand-drive models come with a selection of three great engines, the diesel RX270XD and RX270XVT, as well as the petrol RX320. The 2.0-litre RX270XDi, with direct fuel injection, offers both economy and power. Maximum output is 148ps and maximum torque is maintained over virtually the entire rpm range, for quick engine response and outstanding acceleration when passing. The six-cylinder, 3.2-litre RX320 features

5-speed automatic

Many Rover automatic transmissions, built with Mercedes-Benz technology, provide smooth and quiet operation. The advanced 4H programme monitors the vehicle's operational status and can anticipate the driver's intentions, while optimal gear changing delivers the best driving performance at high speed and improved fuel efficiency.

Thumbs up manual mode

The Rover 75 with automatic transmission features a sporting driving option. Switches on the gearshift knob and steering wheel let the driver shift gears up or down manually.

Manual transmission

The 5-speed manual offers smooth and responsive shifting action, while a dual-mass flywheel has been included to reduce noise and vibration.

RX270 XVT
185ps (137kW) 2,696cc

RX320
220ps (163kW) 3,200cc

RX270 XDi
185ps (121kW) 2,696cc

DYNAMIC DRIVING, COMFORTABLE RIDE

The authentic SUV performance

You get to choose the drive train system that suits your driving needs best. Part-time 4WD will provide better fuel economy under normal driving conditions, while full-time 4WD maximises safety when the driving gets rough and extra traction and torque are needed. TOD is a compromise that provides the greatest flexibility.

Full-time 4WD

The all-wheel drive system distributes 50% of the torque to the rear wheels and 50% to the front wheels at all times. This provides quick starts and great overall responsiveness. For improved driving safety under all road and weather conditions. Whenever any giant tore starts to slip, power is immediately transferred to those tyres with traction for maximum grip when steering your vehicle during evasive manoeuvres. (KR320)

Torque On Demand

The TOD system is designed for all-around driving comfort and ease under dry-to-wet road conditions. Normally, almost all of the power is allocated to the rear wheels. However, the system is equipped with sensors that monitor driving conditions and will automatically distribute additional torque to the front wheels when the wheels start to slip, thereby enhancing vehicle stability. (RB270DT)

Part-time 4WD

Part-time 4-wheel drive is simple and offers great driveability. Normally, the vehicle is driven by the rear wheels only, delivering fuel consumption because of the lower rolling resistance. The driver can switch the transfer to four-wheel drive while the vehicle is in motion whenever additional traction is required. (RX270DT, RX290)

Incorporating the double wishbone with the impact-absorbing 9-link independent suspension

The Rexton W employs the same advanced suspension systems found on many luxury saloons to achieve the supple but damping response in both handling and ride comfort. (KR320/RX7 - available)

Double wishbone in front

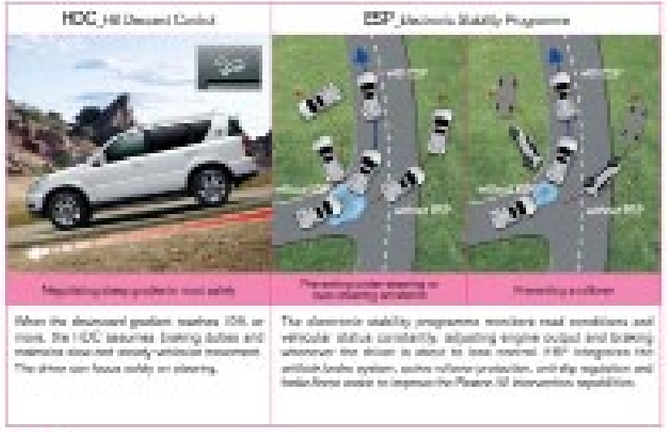

The front wheels are suspended by lower and upper arms to maintain optimal wheel contact for better driving stability. Ride smoothness is further enhanced by dual action gas-filled shock absorbers, stabiliser bar and coil springs.

You can choose between Rexton's passive five-link suspension with coil springs and the all-new 9-link independent suspension system. Each link performs a specific wheel locating task to ensure constant steering stability and superior handling amid changing road conditions. Moreover, the wheels move independently of one other, reducing chassis movement on rough surfaces and maintaining optimal wheel control at all times.

SMART SAFETY, GOOD IDEA

In control under any circumstance

The Reiton W is equipped with cutting-edge active safety systems, including the Electronic Stability Program, which integrates the electronic brake-force distribution, the antilock braking system, brake-assist system, traction control system, and active rollover protection. The ESP monitors the vehicular status at all times, and takes charge of engine output and brake force the moment the driver is in danger of losing control.

When the downward gradient reaches 15% or more, the HDC assumes braking duties and maintains slow and steady vehicular movement. The driver can focus solely on steering.

The electronic stability programme monitors road conditions and vehicular status constantly, adjusting engine output and braking whenever the driver is about to lose control. ESP integrates the antilock brake system, active rollover protection, and slip regulation and brake-force assist to improve the Reiton W intervention capabilities.

SOLID PLATFORM, A SAFETY FUNDAMENTAL

Maximum protection in a collision

The Pasteur VI is designed to withstand impacts and disperse impact forces more effectively in order to ensure the safety of all occupants. The front crossbar is bolted onto the frame, and both the front and rear bumpers are reinforced for better impact absorption in head-on or rear-end collisions. The overall chassis is also fortified with high tensile-strength steel plate. Inside, the driver is safeguarded by a collapsible steering column. Both the driver's and front passenger's seats are equipped with front seatbelt pretensioners and load limiters, and all occupants are protected with airbags.

Prepared to protect you and your family should the unthinkable ever occur.

The ultimate value of any vehicle is measured by how well you can walk away from it after an accident. In advance of its impressive aesthetics and comforts, the Pasteur VI has been designed to withstand impacts and disperse impact force most effectively. The front/rear seats are provided by limited airbags and supplemental side impact airbags.

01_Battery-link unbreakable and leakproof

02_Speed-sensing door locks

03_Door-impact bar

Solid reinforcement

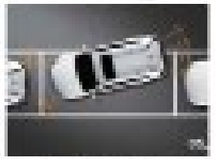

The ultra-rigid frame, which features triple-layer construction, is built to absorb and disperse shocks and impacts of all kinds. This means less vibration during normal operation, longer durability overall and greater safety in a collision.

Ultra-rigid frame with triple-layer construction

04_BRAKE

05_Front and backup warning system

The Rexton W proudly carries on the tradition of Korea's flagship SUV. The interior and exterior sport a luxurious new face, while an exciting new heart beats under the hood. Everything you've liked about the Rexton before is here together with much more.

STYLE, COMFORT AND CONVENIENCE EXTRAS

01_Safety power window on driver's side
Closes/opens and locks/unlocks automatically if electronically on alarm

03_Privacy glass
Keeps out prying eyes for more security

05_Side step
The newly designed side step is finished with stainless steel for a luxurious and refined look

04_Fog lamps
Helps the driver see and be seen in inclement weather

05_Folding heated outside mirrors
Power adjustable, remains clear on cold or wet days, facilitates negotiation of narrow spaces

06_Sun roof and silver roof rack
Fashionable, functional and fun

01_Rear spoiler with LED stop lamp
(Deluxe type) Enhances high-speed stability and appearance, sets drivers to the rear when brakes are applied.

06_Rear spoiler with LED stop lamp
(Standard type) Adds a touch of sportiness to the SUV, improves safety

06_Heated rear glass
Keeps the rear pane of frost and fog so visibility for greater driving safety

10_Flip up glass
An easy way to access the back without opening the tailgate

The Rexton W offers many little extras that add up to a big difference in how you feel about your SUV

The Rexton W is an extraordinary SUV. You are treated to the sumptuous comfort that you'd expect from a luxury saloon. This is a masterpiece of automotive art, crafted for people who truly appreciate excellence and who love to drive.

01_Electronic control
Helps save fuel and makes driving long distances easier, activated by a lever on steering wheel.

02_Bluetooth hands-free
Enhances driving safety by allowing the driver to stay focused on the road.

03_Speed sensing power steering
Makes driving safer by increasing required steering effort as vehicle speed accelerates.

04_Automatic light control
Turns lights on and off as needed via optical sensors, especially useful in tunnels, underground spaces.

05_Easy access mode
Driver's seat automatically moves to the preset position when key is inserted in the ignition.

06_ Exercise memory driver's seat
Improves comfort and convenience by automatically adjusting the preferred settings for the driver's seat, steering wheel and mirrors

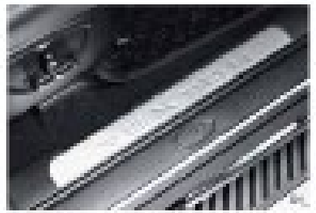

TYRES & WHEELS

16" alloy wheels with 205/55 tyre on Bridgestone tyre
16" alloy wheels with 205/55 tyre or 225/50 tyre

01_Electrodynamic mirror
Automatically cuts headlamp glare for greater driving safety at night.

02_3-din audio with MP3 (CD) player
Sounds great and supports multimedia.

03_Automatic climate control
Keeps cabin temperature at the optimal comfort level.

04_Stainless steel door scuffs
Adds a stylish look and helps protect the front legs.

05_Centre console
Serves as armrest and hands storage compartment, illuminated.

06_Power outlets
Offers all occupants with a convenient way to recharge handheld electronics.

07_Lumbar support
Relieves backfatigue on long trips.

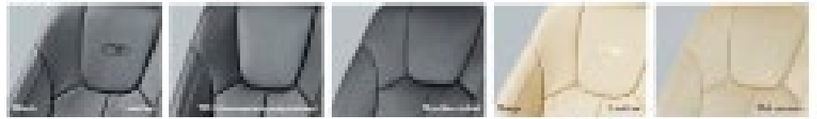

08_Perimeter alarm
The alarm can remotely activate the perimeter alarm if a suspicious person is looking near the vehicle or if some other kind of help is needed.

09_Bridgestone tyres
High quality, dependable original equipment.

FEATURES LIST

SUPERMARKET

Progressive headlamps with light guide
Chrome-coated radiator grille
Aero-blade wipers
Outside mirror with LED side repeater
Body colour exterior door handles
16" alloy wheels 205/70 tyres (Nx Range)
16" alloy wheels 205/70 tyres (Nx Range)
19" alloy wheels 225/55 tyres (diamond cutting)
Progressive tyres
Wheel arches colour coordinated to body (with liner)
Chrome inserted in door sill moulding
Panoramic roof rails
Side steps
LED rear combi. lamp with light guide
Sporty air spoiler with LED high mounted stop lamp
Pop up tailgate glass with defroster air spoiler
Fork unfurnish
Alluminum tinted glass
Temporary spare tyre
Engine cover to dampen noise heard both inside and outside the vehicle
Wheel trims silver door sealll
Chrome tailpipe
Towing and towing hook
Safety power sunroof
Metallic/pearl coloured on fascia, console and door trim
Metallic/pearl coloured on fascia, console and door trim

AIR COMFORT

PTC (positive temperature coefficient) heater
Fully automatic air conditioning with temperature sensor and climatronic temperature gauge
Dual air conditioning with independent climate control unit for the rear seats
Air quality control system
Rear vent duct for improved air circulation
Two air filters to ensure interior air stays fresh

CONVENIENCE

Electronic cruise control
Windshield wiper de-icer
Heating/cooling device to maintain maximum illumination
Rear wiper and washer to ensure uncontaminated view
Heated tailgate window with timer to defrost before starting up the vehicle
Remote keyless entry system with burglar alarm
Dual PEPS (Remote Keyless System)
Illuminated ignition key slot to help you get started in the dark
Auto light control and rain sensing wiper
Battery saver
Blue-tinted curved door mirrors that can be electrically adjusted, folded and heated
Power-folding outside door mirrors
Easy to read LED black face clusters
Tinted windshield glass
Solar tinted door glass
Privacy glass (rear door windows, quarter windows and tailgate window) to keep interior cool and add the look of luxury
2DIN MP3 CD/F audio system
BOSE system
Audio remote control switch on steering wheel
USB and AUX slot
Bluetooth system
Six speakers
12V DC power outlets on upper fascia, under the front passenger seat, and in the cargo bay
Rear storage compartment under cargo tray
Coat hangers in the rear
Metallic illuminated ashtray
Overhead console in cozy mode
Digital clock on the dashboard
Dual gas filled struts for bonnet and tailgate
Handy centre storage console
Manual seatbelt height adjustment on "D" pillar
Map pockets on the inside of the doors
Pop-out cup holders in the front and rear
Illuminated with illuminated vanity mirror
Glove box with inner flocking
Luggage cover, luggage net and barrier net to improve cargo utility
Leather steering wheel cover with metal/grain or wood/grain accents
Floor mat

MECHANICAL

185ps 2.2 TD (Diesel engine (340 Nm with CDPF)
185ps 2.2 TD DUT (Diesel engine (175ps with CDPF)
220ps 2.2L Silky-six petrol engine
Full time all wheel drive
Since 1.0.0 is automatically adjust power distribution front and back as driving conditions change
Part-time 4WD with shifting on the fly
5 speed manual transmission with dual mass flywheel
6+ front, 6-speed automatic with sequential control
safety feature (Mercedes-Benz)
Thumbs Up with buttons on steering wheel and switch on gearshift knob for more dynamic driving response
Double wishbone front suspension system with coil springs
Five-link rear suspension system with coil springs
Impact absorbing 4-link rear suspension (IRS)
Additional water condensator to protect the engine and fuel system
78L fuel tank
Hydraulic power steering
Speed sensitive power steering

SEATS

8 way (power-adjustable driver's seat
4 way power-adjustable front passenger's seat
2nd row seats can be folded fully flat for ample luggage room
Settings for three drivers, including seat & outside door mirror positions, stored in onboard memory
4 way folding & sliding rear armrest made for driver's seat
Driver lumbar support
Heated front seats with 8 memorizable settings
Heated rear seats
Sliding front headrests
60-40 split folding 2nd row seats with folding centre armrest
Luxurious leather seat ensures the comfort
[ML] Elegant/sporty perforated seat centers
Appealing woven-cloth seat covers for beige interior
Appealing double-tasked cloth seat covers for black interior

SAFETY

Ultra-rigid frame for greater strength, less vibration and noise
Door impact beams for optimal protection from side collisions
Airbags for driver and front passenger
Seatbelt load limiters and pre-tensioners
Side airbags
4-channel anti-lock braking system
Electronic stability programme (ESP® with emergency brake assist, hill descent control
HDC) and active roll-over protection (ARP)
Front ventilated disc brakes
Rear ventilated disc brakes with PS
Rear disc brakes
Front warning sensors
Rear collision warning system with 3-stage alarm
Door warning lamps
Front fog lamps
Rear fog lamps (Regulations region only)
Immobiliser system
Childproof safety lock
Speed sensitive door lock
Collapsible steering column
ISO-FIX and tether anchorage for baby car seat (Regulation region only)
Seatbelt reminder to bring the driver's attention to their seatbelt
Electrically-operated, heated rear window defroster
Safety power windows
Visual VIN (Key &other engine only)

– Some of features may be optional or not be available according to models. Please contact your local dealer for the exact details regarding options and so on your cars.
