SUBARU XV

SUBARU
Confidence in Motion

TRUST WHAT'S INSIDE

to thrive in the living city.

Whatever comes your way. Wherever your drive leads you. Whenever it takes an unexpected turn. The all-new Subaru XV is poised to take on all your urban adventures—both the planned and spontaneous. It's stylish, spirited and versatile, giving you the unique tools and functionality to go where your lifestyle leads. And inside every Subaru is the exclusive combination of Symmetrical All-Wheel Drive with the SUBARU BOXER engine, providing a delightfully responsive drive and sure control to deftly navigate the streets. You'll find an unmatched sense of possibility, security and exhilaration that makes the Subaru XV distinctly suited for the living city. Because what's inside a Subaru will give you confidence like no other.

TRUST DESIGN that does.
TRUST AGILITY that moves.
TRUST EXPERIENCE that protects.

TRUST DESIGN

to adapt for urban action.

The Subaru XV knows you need to live smart and look smart. Chaotic commutes, a weekend away or a night on the town—it handles ever-changing demands with reassuring versatility. It's compact on the outside for those narrow urban corridors, yet it's roomy and flexible on the inside to fit whomever and whatever you bring, and it's sharply stylish all around.

SUBARU XV

IN TUNE WITH THE CITY. INSIDE OUT.

With its bold fender flares and sleek aerodynamic profile, at first glance you know the Subaru XV is a crossover with a modern edge. Sculpted lines and creases on the body help direct airflow for greater fuel efficiency, and the forward-swept windshield brings an aggressive style with improved visibility—combining real-world practicality with ideal-world design.

FENDER FLARES

Make a visual impact like no other—the athletic fender flares set apart the Subaru XV with an unmistakably sporty crossover profile. Combining street-smart ruggedness and nimble versatility, it's ready for the road, rain or shine.

17-INCH ALUMINIUM WHEELS

The Subaru XV comes with stylish 17-inch aluminium wheels that infuse a performance-inspired stance. Finished in a unique black and machined two-tone scheme, the striking contrast reflects its dual character that's both bold and casual.

XV-5124

INTUITION. AT YOUR FINGERTIPS.

You're at the seat of action with the Subaru XV's ergonomic cockpit controls. Information and entertainment is all within reach—the available High-Grade Multi-Function Display allows you to monitor traction and keep track of how much fuel your car's sipping. While information is at your control, the high seating position and wide-open view give you a greater feeling of command.

FM1 ch1
87.50MHz

SPACE FOR THE CITY CENTRE.

Sit in the Subaru XV and you'll feel as though the world around you got a bit more expansive. It begins with space for both the passenger and driver, boasting more hip, elbow and shoulder room. With an extended wheelbase, rear passengers will find even more legroom. All of that comes with greater comfort, from seats accented in a sporty mesh to the refined, soft-touch interior trim. When you're inside the Subaru XV, the crowded city has never felt so accommodating.

MORE COMFORT FOR EVERYONE

The all-new Subaru XV features many innovations to put you and your passengers at ease. The seats are refined for long-term comfort with more supportive, vibration-absorbing cushioning. For a better, more confident view of the road, the hip point has been moved higher. And you'll find convenient touches easily at hand, like the improved texture armrests, and angle-adjustable headrests.

INSPIRATION COMES IN ALL SIZES

There are big ideas for life's little things, too. Pockets in each door include bottle holders to keep yourself refreshed. The centre console includes cup holders, a tray and a padded armrest that opens to reveal added storage and a 12-V power outlet.

IN SYNC WITH LIFE IN ACTION.

WHAT'S INSIDE:

Passenger and cargo space come together in harmony with plentiful storage space and flexibility that defies convention.

WHAT IT DOES:

With versatility limited only by your imagination, you know that the Subaru XV is more than capable of keeping pace with your demanding lifestyle.

Everything about the Subaru XV's design—even the compact engineering of its rear suspension—goes into making it a crossover you'll love to live with. With a wide luggage area, it handles cargo for your weekend hauls with ease. What's more, 60/40 split rear seats easily fold individually or together to give you even more space. Well-suited for an active life, its design makes getting in and out easy.

VERSATILE CAPACITY

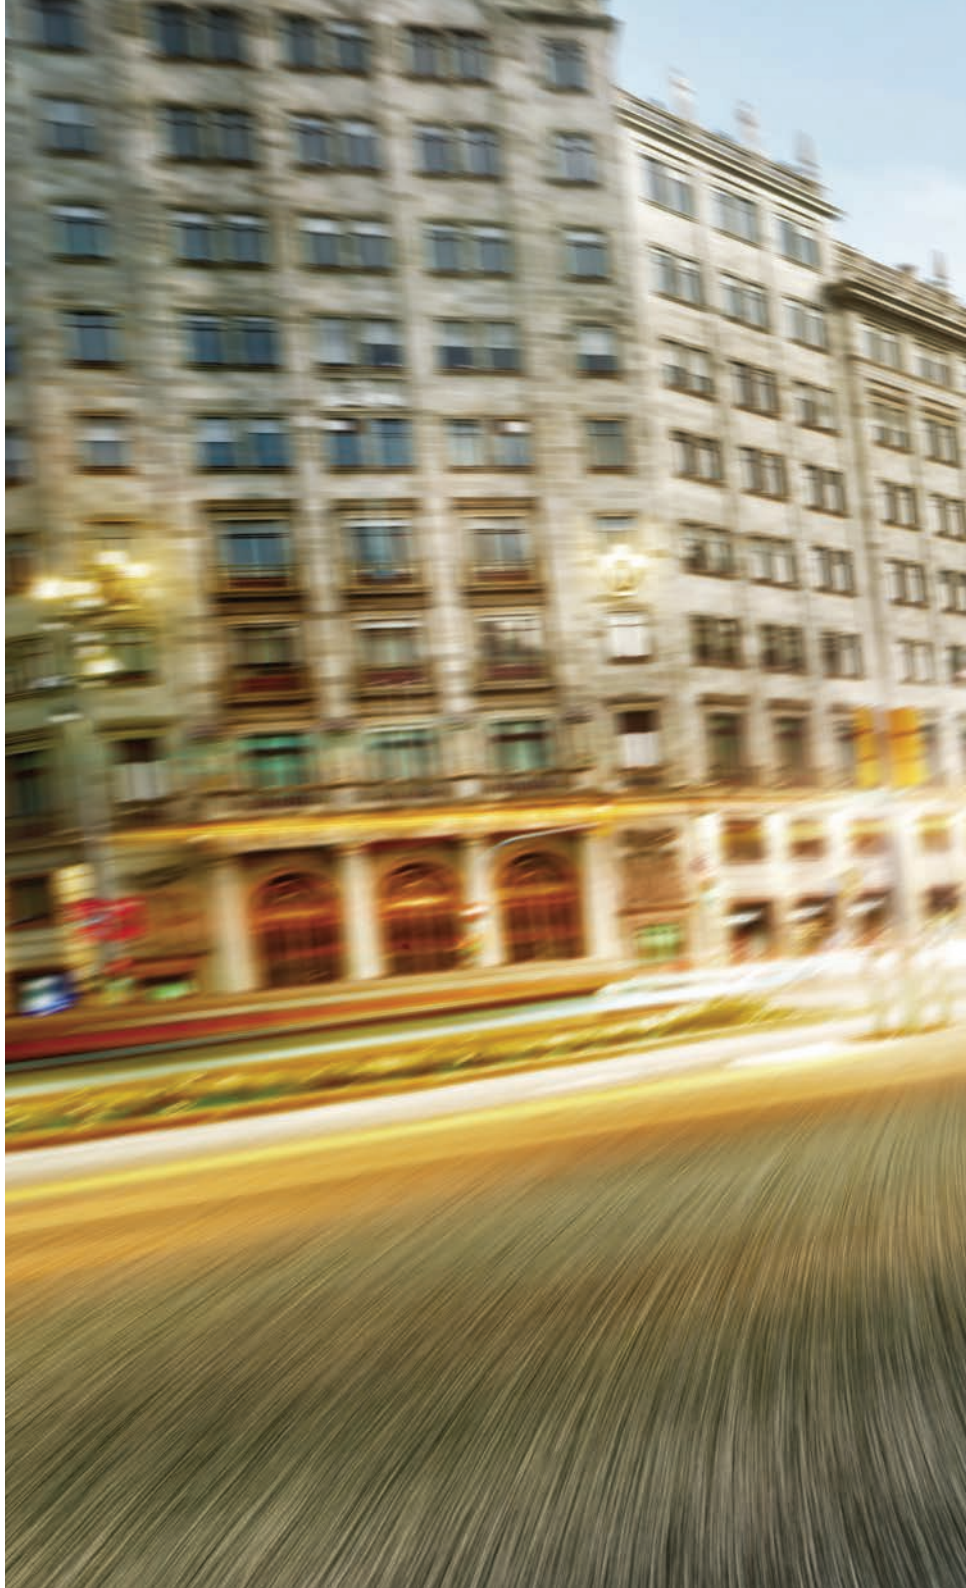

The Subaru XV can carry five passengers and pack five carry-on suitcases at the same time. 60/40 split rear seats mean the Subaru XV has the versatility to hold a rear occupant and a bike at the same time. With 1,250 litres of cargo volume*, a nearly square rear gate and flat-folding rear seats, it'll take on your latest urban or outdoor excursion with ease.

* Measured by VDA (V214). Without sunroof.

TRUST AGILITY

to delight at every corner.

Inside the Subaru XV is a one-of-a-kind combination of engine and Symmetrical AWD that delivers an experience unlike any other. In town or on the open road—from the streets to the switchbacks—The Subaru XV's balance, poise and power give you control to get the most driving joy out of every setting.

HVT 080

TOTAL CONTROL COMES FROM ITS CORE.

Symmetrical All-Wheel Drive

The satisfaction of the drive comes from symmetry and balance. That is why Subaru has been developing and perfecting the Symmetrical AWD system since 1972. Matched with the SUBARU BOXER engine for a near-perfect symmetrical layout, it delivers gratifying power with exceptional traction, providing balance and stability for total control in ever-shifting road conditions.

DYNAMIC PERFORMANCE

Excellent road adhesion gives acceleration an immediate and exhilarating feel. Symmetry enhances the Subaru XV's handling to be more stable and responsive during cornering, imparting a unique feeling of control in any situation.

CONSTANT CONTACT

The more your tyres are engaging the road, the greater control, security and connection you have. Power is routed to all four wheels all the time, maximising handling and traction.

AGILITY IN AN EMERGENCY

In bad weather, or in the precious seconds it takes to react to a sudden situation, the symmetrical drivetrain with almost total side-to-side balance provides the stability, agility and traction that help you step around danger.

HVT 080

POWER BRINGS OUT ITS PLAYFUL SIDE.

SUBARU BOXER Engine

Few cars deliver the thrilling eagerness and spontaneity of the Subaru XV. It's achieved with the horizontally-opposed SUBARU BOXER engine, which places the pistons 180 degrees apart for a lower, flatter profile compared to other engine types. This gives the powerplant—and by extension the whole car—a lower centre of gravity and more balanced weight distribution. In addition, the pistons' opposing movements counteract each other, which naturally reduces vibration.

INCREASED STABILITY

Because the engine block has a flatter profile and sits lower in the chassis, the overall vehicle is more stably balanced and resistant to side-to-side motion than other designs.

SMOOTH AND EXCITING

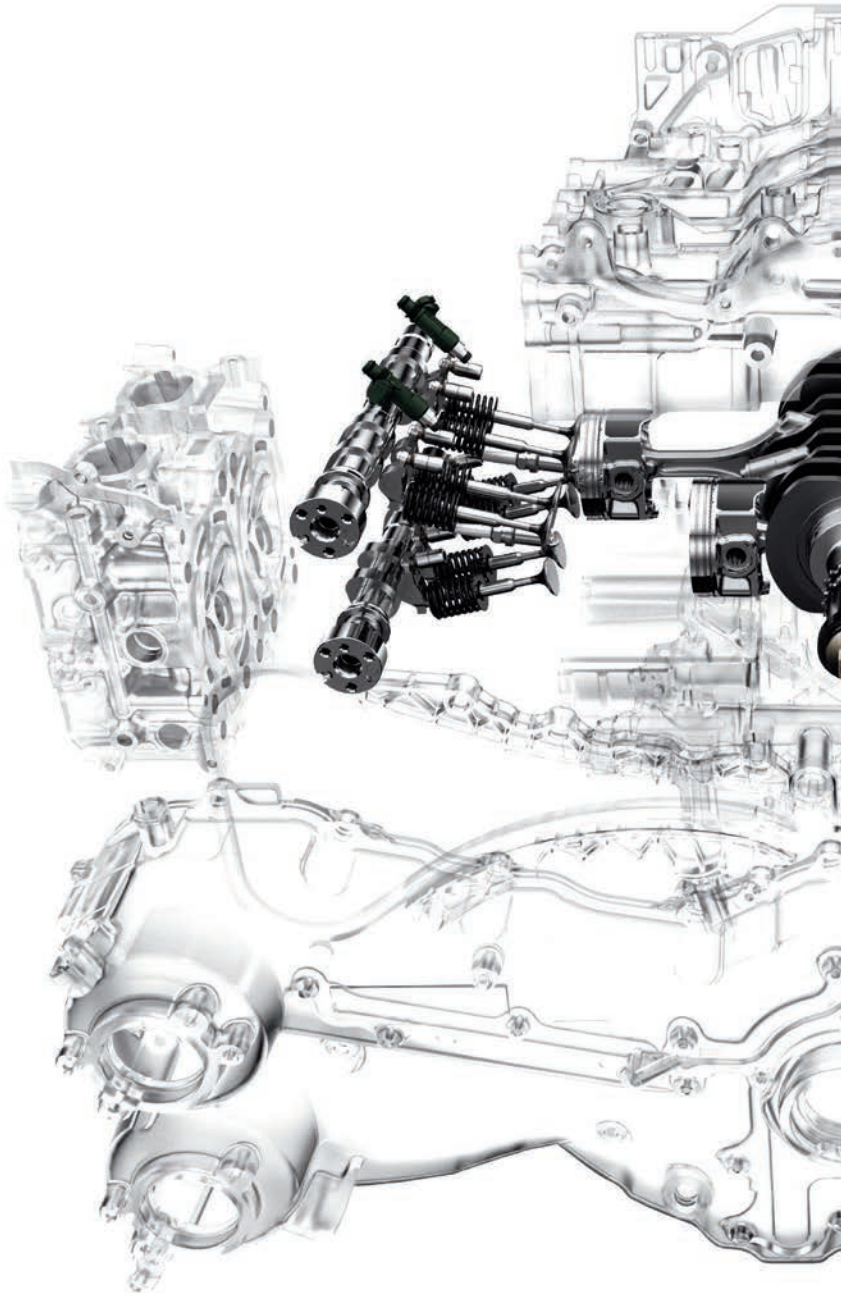

At any rpm, the engine delivers immediate, responsive power that's both smooth and satisfying. Without compromising comfort or civility, it transforms even a daily errand into a dynamic adventure.

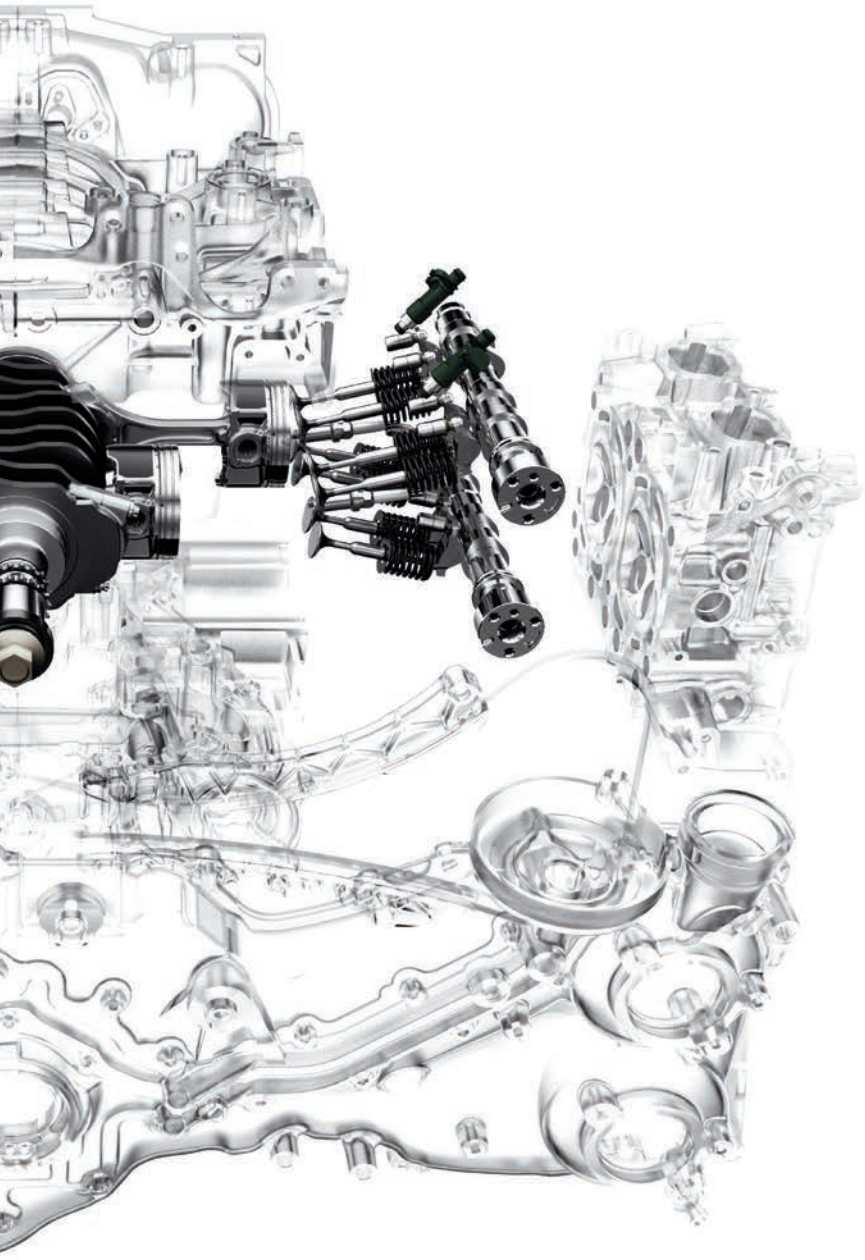

LONG-LASTING PERFORMANCE

The engine's flat design is inherently rigid and self-balancing, generating less vibration than "V-type" or "in-line" engines for more durability and more reliable performance.

SPIRITED RESPONSE

Whilst the SUBARU BOXER engine has always provided exceptional balance and a smooth response, we've made the experience of driving a Subaru even more inspiring. Our engineers scrutinized the effectiveness of every valve, port and piston, creating an engine that's lighter with better fuel economy. And it not only achieves new heights of efficiency, but also has more low-end torque, giving an immediate and stimulating response every time you hit the gas pedal.

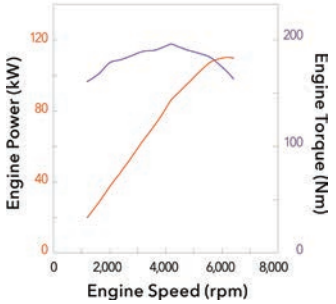

2.0-LITRE DOHC SUBARU BOXER

MAX OUTPUT: 110 kW (150 PS) / 6,200 rpm
MAX TORQUE: 196 Nm (20.0 kgfm) / 4,200 rpm
FUEL ECONOMY: 7.9 lit./100 km*(Lineartronic)
CO_2 EMISSIONS: 187 g/km*(Lineartronic)

The power to stir excitement comes from the rich and immediate response of Subaru's 2.0-litre DOHC petrol engine. Improved Active Valve Control System (AVCS) and an optimised intake provide a generous amount of low-end torque, ensuring you have the acceleration you need around town. That performance comes responsibly, too—cylinder-mounted injectors and lightweight pistons and connecting rods mean it's as frugal with fuel as it is clean-burning. In addition, due to its vibration-canceling SUBARU BOXER layout, power and efficiency comes with refinement that's made for urban living.

* Fuel consumption and CO_2 emissions: according to ECE R101.

INSPIRES JOY IN ANY GEAR.

WHAT'S INSIDE:

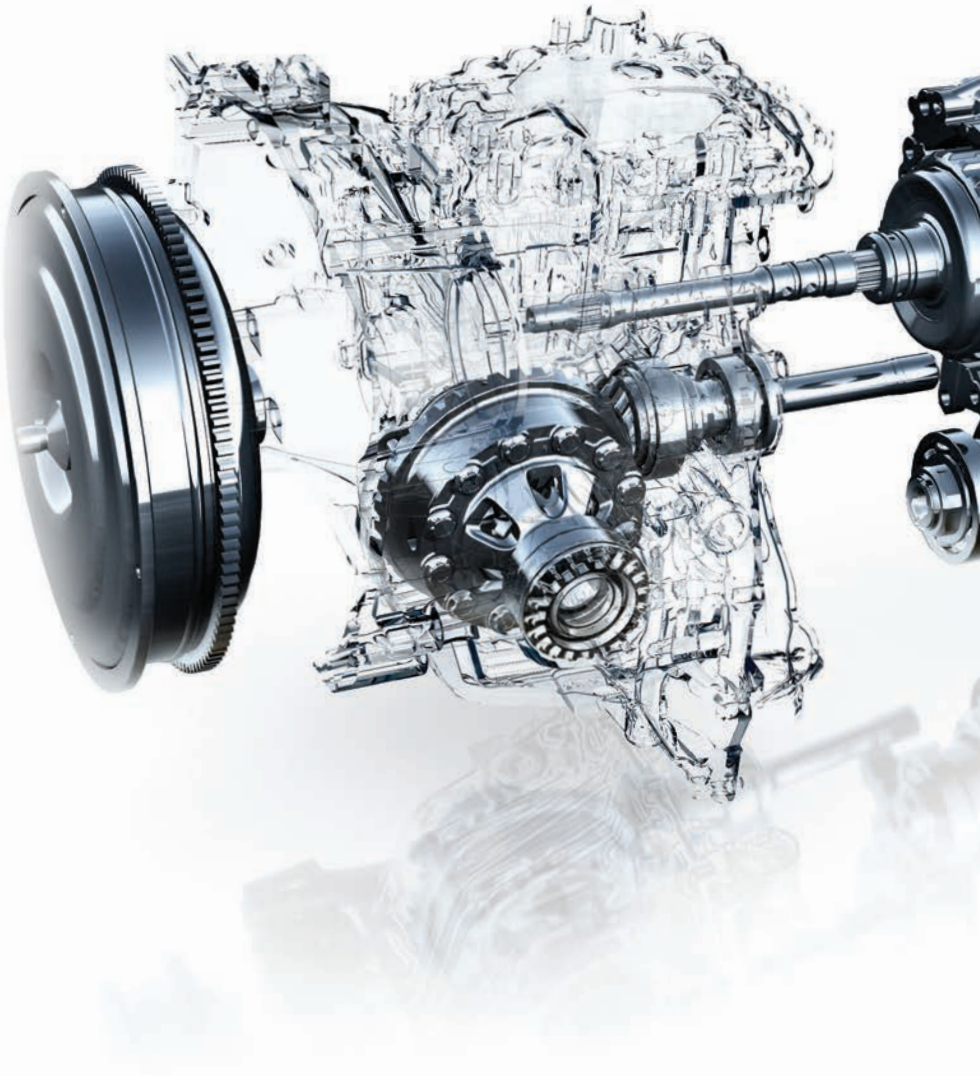

The Subaru XV gives you the choice in transmissions fit for your driving style, each mated to its own variation of Symmetrical AWD.

WHAT IT DOES:

No matter how you choose to control the engine's performance, you'll always enjoy the solid balance and control of Symmetrical AWD.

LINEARTRONIC + ACTIVE TORQUE SPLIT AWD

The all-new Subaru XV achieves new levels of response and efficiency with Lineartronic Continuously Variable Transmission. This unique transmission dramatically improves fuel efficiency by keeping the engine in its optimal rev range, and preserving momentum that's often lost during a gear shift. And thanks to its compact and lightweight configuration, it ensures a quick response and engaging performance.

SUBARU DYNAMIC CHASSIS CONTROL CONCEPT

With Subaru Dynamic Chassis Control Concept (DC^3), all the components of the all-new Subaru XV are designed to work in harmony—bringing the crossover closer than ever to handling perfection. It employs high-tensile steel in critical areas to achieve high strength with light weight. The highly rigid body structure delivers accurate and direct steering feel whilst allowing the engine and suspension vibrations/movement to be effectively isolated from the cabin. This brings together everything that makes driving a pleasure: confidence, comfort, sportiness, safety—all in sublime balance.

FRONT SUSPENSION

Blending sporty handling with a comfortable ride, the Subaru XV's suspension is fine-tuned for everyday enjoyment. In the front, the rigid struts enhance responsiveness and give the steering an accurate and connected feel. A thicker front stabilizer bar ensures flatter cornering and better control for a more confident and linear feel.

REAR SUSPENSION

The refined rear suspension will provoke your passion for driving. The stiffened double wishbone rear suspension handles rough roads and sharp corners with poise and precision, giving you the rotation and response you want for an exciting ride. Pillow ball bushings improve tyre contact for better traction and a more intimate connection to the road.

SUBARU XV

TRUST EXPERIENCE

to navigate the unexpected.

From uneven asphalt to slick streets. From hectic drivers to harried pedestrians. Urban hazards abound around every corner and at every stoplight. But driving pleasure and peace of mind comes knowing that the Subaru XV helps keep you out of harm's way—with features that improve protecting you in an accident as well as active technologies that help you avoid one altogether.

LOOK WITHIN TO ANTICIPATE WHAT'S AHEAD.

WHAT'S INSIDE:

Subaru XV's AWD, handling and active safety systems give you the power and balance to skirt danger when it crosses your path.

WHAT IT DOES:

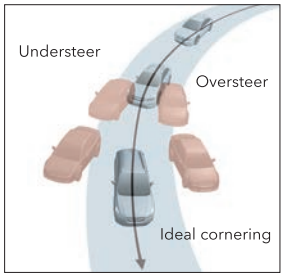

Subaru knows the best way to survive a collision is to never get into one in the first place.

ACTIVE SAFETY, TO AVOID A COLLISION

Many of the same features that make the Subaru XV a thrill to drive also help keep you out of harm's way. The stable, responsive handling of its Symmetrical AWD is enhanced by the low centre of gravity of its SUBARU BOXER engine. Combined with the standard Vehicle Dynamics Control System, surefooted suspension, antilock brakes and responsive steering, you're always in control.

VEHICLE DYNAMICS CONTROL SYSTEM

Standard on every Subaru XV, the Vehicle Dynamics Control System monitors and analyses whether the car is following your intended course through an array of sensors. If the vehicle approaches the limits of stability whilst cornering or avoiding an obstacle, the AWD torque distribution, engine output and brakes at each wheel adjust to keep the vehicle on course.

BRAKING SYSTEM

With powerful disc brakes at every wheel, the Subaru XV has braking response that's placed it in a class of its own. The standard 4-channel Antilock Braking System (ABS) prevents brake lock under hard braking and is matched with Electronic Brake-force Distribution, which reapportions the front/rear braking pressure when the vehicle is loaded. In addition, the Subaru XV ensures maximum braking during an emergency with brake assist, which delivers higher levels of braking force when the brake pedal is applied fully or rapidly; and with brake override, which enables you to brake to a stop even if the gas pedal is pushed down at the same time.

PREPARED FOR WHAT'S ALL AROUND.

WHAT'S INSIDE:

Smart engineering, exceptionally rigid construction and advanced technologies are ready to keep dangerous impact energy away from the vehicle's occupants, just in case.

WHAT IT DOES:

Whilst a collision sometimes can be unavoidable, you can have peace of mind knowing you're always surrounded by a vehicle that's proven to help protect.

PASSIVE SAFETY, TO BETTER SURVIVE A COLLISION

Occupant protection is a high priority in every element of the Subaru XV—from the major features such as seats, to the smaller ones like the pedals. Its energy-absorbing body structure is smartly strengthened with high tensile-strength steel in critical areas, minimising the impact force that can reach the cabin whilst increasing bending stiffness. In addition, an array of advanced interior safety features help protect occupants directly.

RING-SHAPED REINFORCEMENT FRAMES

The Ring-Shaped Reinforcement Frames strengthen the passenger cabin from the roof to the doors, pillars and floor. This helps divert and dissipate impact energy away from the occupants in a collision. The frames for the Subaru XV feature high-tensile steel designs that are strong and rigid yet lighter weight.

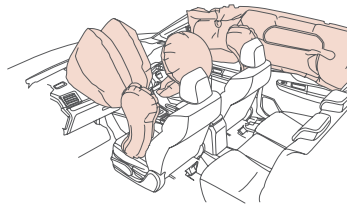

BREAKAWAY ENGINE

Every Subaru goes above and beyond common practice when it comes to your safety. In the event of a head-on collision, your Subaru XV's SUBARU BOXER engine and gearbox are designed to absorb the impact and break away from the cabin for your protection.

PEDESTRIAN PROTECTION

Made for the urban landscape, the Subaru XV provides a high level of pedestrian protection. Shock-absorbing space between the bonnet and engine helps reduce pedestrian injury if an accident were to happen, as do an energy-absorbing front bumper and a specially designed area around the windshield wipers.

SEATS, SEATBELTS AND SRS*1 AIRBAGS

Height-adjustable front seatbelts feature pretensioners to hold passengers firmly in place. And the Subaru XV now features whiplash-reducing front seats and energy-absorbing head restraints that can help better protect front occupants from injury during a rear collision. Even the rear seats have been optimised for protection, with the seating position moved back to reduce the effects of a side impact. Front SRS*1 airbags (for driver and front passenger) and knee SRS *1 airbag (for driver) are now standard. Also, tether and ISO-FIX anchors—which don't compromise luggage room—facilitate easy installation of compatible child safety seats.

*1 SRS: Supplemental Restraint System. Effective when used in conjunction with seatbelts. Front-side and curtain SRS airbags are optional on 1.6i.
*2 European specification XV tested.

LINEUP

SUBARU XV 2.0i PREMIUM

DIMENSIONS: L x W x H: 4,450 x 1,780 x 1,615 mm
ENGINE: Horizontally-opposed, 4-cylinder, DOHC 16-valve petrol
CAPACITY: 1 ,995 cc
MAX OUTPUT: 110 kW (150 PS) / 6,200 rpm
MAX TORQUE: 196 Nm (20.0 kgfm) / 4,200 rpm
TRANSMISSION: Lineartronic CVT, AWD

Ice Silver Metallic

Ice Silver Metallic

2.0i PREMIUM

2.0i PREMIUM

THOUGHTFULLY EQUIPPED, INSIDE AND OUT.

Halogen Lamp with levelizer (2.0i Premium)

Available high-intensity discharge headlamps provide illumination that's more like daylight. The levelizer helps to ensure that the headlamps are always pointed at the correct angle for the best visibility.

Power-folding door mirrors (2.0i Premium)

Aerodynamically designed to reduce wind noise, the large mirrors fold in electrically for narrow roads and parking spaces.

Fog lamps

Multi-reflector fog lamps also serve as daytime running lights, and emit a wide, flat beam that reflects less glare in fog, for added safety.

Roofrails

Ready to support your life's accessories, roofrails on the Subaru XV add more utility to your enjoyable drive.

Rear view camera (2.0i Premium)

This backup camera aids drivers by increasing visibility when reversing and improve driveability

Cruise control

One-touch control allows the driver to set and maintain a steady cruising speed, convenient for long-distance driving on open motorways.

Retractable cargo cover

The cargo cover is retractable or removable, and features a rigid, lightweight aluminium frame.

Auto-on/off headlamps (2.0i Premium)

A light sensor turns on the headlamps automatically at dusk, and shuts them off when you remove the key from the ignition.

ACCESSORIES

Personalise your ride.

Whilst every Subaru XV comes generously equipped, Subaru accessories are the perfect way to tailor your Subaru to your life and your style. Whether you want to add convenience, enhance functionality, or personalise your Subaru XV's appearance, Subaru accessories are designed to provide the same fit and quality as your Subaru vehicle. For more details, ask for the accessory brochure or visit your nearest Subaru dealer.

Vehicle is presented with a Hood Deflector, Front Grille (Mesh), Front Resin Under Guard, Door Visor, Side Protector, Side Resin Under Guard, Splash Guard and Roof Spoiler.
