ENGINEERED TO INSPIRE
TRUST

Experience innovation and refinement that are set apart from any other. Take in the refined styling that has even more of a presence with a sporty hexagonal grille and raked headlights. Turn the key and discover the assuring control built into the Subaru Legacy. It begins with the acclaimed combination of Symmetrical All-Wheel Drive and SUBARU BOXER engine, providing heightened response, lush power delivery and sublime balance. You'll feel it all working together to captivate the road as well as your imagination, because you can trust the engineering inside.

Count on staying ahead of the curve.

Surpass the expected—and your expectations—with the Subaru-exclusive combination of the SUBARU BOXER engine and Symmetrical All-Wheel Drive. The Subaru Legacy brings alive your drive with thrilling response and composed control at every turn, giving back a more passionate experience with each journey.

It corners the market on confidence. And cornering.

Symmetrical All-Wheel Drive

Symmetry gives you balance. Balance gives you control. That is why Subaru has been developing and perfecting the Symmetrical AWD system since 1972. Matched with the SUBARU BOXER engine for an almost perfectly symmetrical layout, it maximises the power delivery with exceptional traction and generates balance and stability for total control in almost any condition, giving you the confidence to delight in every kilometre.

Dynamic Performance

Exceptional traction makes acceleration feel immediate and exhilarating. And the symmetry helps the Legacy deliver responsive handling because it's more stable during cornering, for a unique feeling of control at all times.

Constant Contact

The more your tyres are engaged with the road, the more control you have. Power is routed to all four tyres all the time in order to maintain the strongest connection to the road as possible, maximising handling and control.

Agility In An Emergency

In bad weather, or in the precious seconds it takes to react to a sudden situation, the symmetrical drivetrain with almost total side-to-side balance provides the stability, agility and traction that help you step around danger.

Keep your profile low and your expectations high.

SUBARU BOXER Engine

The Legacy drives with a unique sense of spirit, so you won't be surprised by how uniquely it is powered. The horizontally-opposed SUBARU BOXER engine boasts a lower, flatter profile than other engine types. This gives the entire car a lower centre of gravity for balanced handling to match its smooth, torque-rich power.

Increased Stability

Because the engine block has a flatter profile and sits lower in the chassis, the overall vehicle is more stably balanced and resistant to side-to-side motion than other designs.

Smooth Power

At any rpm the engine delivers immediate, responsive power that comes on smooth. The pistons lay flat and work against each other to reduce vibrations, making the ride as easy and comfortable as it is exciting.

Long-lasting Performance

The engine's flat design is inherently rigid and self-balancing, generating less vibration than "V-type" or "in-line" engines for more durability and more reliable performance.

Exhilaration in every corner.

What's inside:

A cohesive level of engineering that is united to make sure every drive is responsive, powerful and always safe.

What it does:

The Legacy offers you a unique combination of immediate response and a fluid ride to ensure a drive that is confident and thrilling in all circumstances.

Subaru Dynamic Chassis Control Concept

Legacy elevates the inherent advantages of its signature Subaru layout-balance, composure and response–with the Subaru Dynamic Chassis Control Concept (DC^3). The body uses high-tensile steel in critical areas to achieve high strength and light weight. A highly rigid Cradle Mount front-end structure delivers an accurate, natural steering feel whilst allowing the engine and suspension to be effectively isolated from the cabin for a smoother, quieter ride. The result is everything that makes driving a pleasure: confidence with comfort, sportiness with safety, and elegance with efficiency–all in impeccable balance.

Front Suspension

Legacy's strut type front suspension features a highly rigid Cradle Mount System, a wide tread and long wheel travel. Together they deliver flatter cornering as well as a quieter, more comfortable ride over a variety of road surfaces.

Rear Suspension

Expertly balancing sporty handling with refinement, Legacy's double wishbone rear suspension handles rough roads and sharp corners with poise and precision. To maximise stability and provide increased responsiveness, the suspension features pillow ball bushings in the lower control arms. Tyre contact is improved under all conditions whilst keeping unwanted vibration away from the passenger compartment.

Performance defined. Inside out.

What's inside:

The horizontally-opposed design of the SUBARU BOXER engine fires with a powerful punch-counterpunch action.

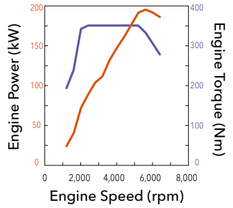

What it does:

Whether you're inspired by intelligent efficiency, refined responsiveness or the thrill of power, your Legacy will consistently respond with balanced, smooth performance.

2.5-LITRE DOHC TURBO SUBARU BOXER

The powerplant that was twice named UK International Engine of the Year (2006 and 2008) has been further improved to boost performance over a broader range of rpm. A Dual Active Valve Control System and turbocharger deliver a nearly ideal balance of breathtaking response with reduced emissions.

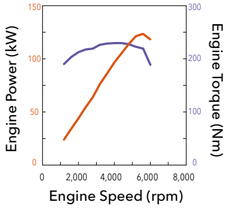

MAX OUTPUT: 195 kW (265 PS) / 5,600 rpm
MAX TORQUE: 350 Nm (35.7 kgfm) / 2,400 – 5,200 rpm

FUEL CONSUMPTION: 10.6 lit./100 km* (5AT)
CO_2 EMISSIONS: 250 g/km* (5AT)

2.5-LITRE SOHC SUBARU BOXER

Naturally smooth and strong, Legacy's SOHC engine delivers high fuel efficiency. Refinements to its pistons, ports, intake manifold and even its spark plugs help to make it more responsive around town, more satisfying on the highway, and cleaner-running on virtually any road.

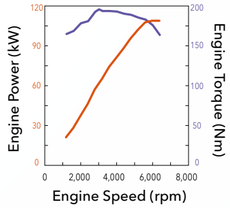

MAX OUTPUT: 123 kW (167 PS) / 5,600 rpm
MAX TORQUE: 229 Nm (23.4 kgfm) / 4,000 rpm

FUEL CONSUMPTION: 9.1 lit./100 km* (LINEARTRONIC)
CO_2 EMISSIONS: 214 g/km* (LINEARTRONIC)

2.0-LITRE DOHC SUBARU BOXER

Legacy's efficient 2.0-litre double overhead camshaft (DOHC) petrol engine is economical and exhilarating. The intake manifold and Active Valve Control System (AVCS) boost low and midrange torque. And from its naturally vibration-cancelling horizontally-opposed layout, it delivers unexpected refinement and response.

MAX OUTPUT: 110 kW (150 PS) / 6,000 rpm
MAX TORQUE: 196 Nm (20.0 kgfm) / 3,000 rpm

FUEL CONSUMPTION:
STATION WAGON: 8.1 lit./100 km* (LINEARTRONIC)
SEDAN: 8.0 lit./100 km* (LINEARTRONIC)

CO_2 EMISSIONS:
STATION WAGON: 187 g/km* (LINEARTRONIC)
SEDAN: 185 g/km* (LINEARTRONIC)

* Fuel consumption and CO_2 emissions: According to UN ECE R101 (2.5-litre models), EC715/2007-566/2011 (2.0-litre models).

Confidence in every gear.

What's inside:

Legacy offers a choice in transmissions, each one mated to its own variation of Symmetrical AWD.

What it does:

The choice is yours. Whether you decide on manual mode or automatic, you'll always enjoy the distinctly stable balance and control of the Symmetrical AWD.

5-Speed Automatic Transmission + Variable Torque Distribution AWD

Legacy 2.5GT Sport model is equipped with a refined E-5AT automatic transmission paired with Variable Torque Distribution (VTD) AWD. VTD instantaneously distributes the engine's torque to all four wheels whilst focusing on the rear wheels to suit the conditions for enhanced handling and superior traction and stability. The electronically controlled 5-speed transmission features driver-adaptive shifting, blipping control for quicker, smoother downshifts, and manual-style control via paddle shifters.

Lineartronic + Active Torque Split AWD

For instant, seamless response to changing conditions, Legacy 2.0i, 2.5i, and 2.5i Sport models are available with Lineartronic, a Continuously Variable Transmission that uses a chain instead of a belt—allowing a greater span of overall ratios for improved performance and efficiency as well as a faster response to your throttle input. It's longitudinally paired with an active torque-split AWD system that responds to traction conditions, the transmission and driver inputs by continuously controlling the torque distribution front to rear. Paddle shifters also provide a six-step manual mode for quick response on demand.

Cruise Control

Standard electronic cruise control allows the driver to maintain a preset speed on the open road. Located on the steering wheel, the controls are finished in a modern dark-metallic sheen.

Paddle Shifters

Whether equipped with the innovative Lineartronic or the 5-speed, every automatic transmission Legacy includes a sporty manual mode with paddle shifters mounted on the steering wheel.

SI-DRIVE: Bring your best performance out.

Admired for versatility, the Legacy 2.5GT Sport offers SUBARU Intelligent Drive (SI-DRIVE) so that you can adjust the responsiveness of its drivetrain to support your driving style, road conditions or any driving state at your immediate request. These three SI-DRIVE modes quickly re-map the throttle response and automatic-transmission shifting behavior with a simple press of a conveniently located button, ensuring that you always have the best performance for any circumstance.

Sport Mode

Sport mode delivers smooth engine performance at any driving speed. You'll immediately feel a linear response that brings to life the refined, torque-rich response.

Sport Sharp Mode

Direct and strong shift points of the automatic transmission occur at a higher rpm, whilst downshifts take maximum advantage of the transmission's blipping control to stay on top of Legacy's broad, flat torque curve.

Intelligent Mode

SI-DRIVE activates Intelligent Mode for immediate driving response and environmental responsibility. Throttle mapping balances smoothness and efficiency for an enhanced level of control.

Believe what you see.

It's in the boldness of its shape. It's in the feel of elevated ambiance inside, and in the intelligence of features that fit your needs. The genius of Subaru takes the intangible and makes it accessible through prodigious attention to comfort and convenience as well as innovative features that keep you connected to the world and your Legacy.

1

2

3

Filled with a deeper sense of comfort.

Legacy Sedan and Station Wagon offer plenty of room for you and your passengers, whilst efficiently making use of the interior space. Its spacious cabin easily accommodates five adults, and the sensible exterior size makes it easy to manage. Headroom, legroom and cargo room all comfortably coexist in stylish harmony inside a body that remains sleek and sporty outside.

1 Audio System with Colour Display

A vivid 4.3-inch colour display and refined controls highlight an audio system that integrates CD/WMA*1/ MP3 playback, AUX and USB inputs, iPod®*2 control, Bluetooth®*3 hands-free functionality, SRS CS Auto*4 sound, and voice tag recognition.

2 Control in your hands. Or hands-free.

Standard satellite switches on the steering wheel place audio controls conveniently at the driver's fingertips. An available Bluetooth®*3 hands-free system automatically links with your registered mobile phone.

3 iPod. MP3. Your music, pure and simple.

Plug your iPod®*2 or other mobile music device into the standard AUX and USB input jack, and your digital music plays through Legacy's audio system.

*1 WMA: WMA is a trademark of Microsoft corporation in the United States and/or other countries. *2 Apple, iPhone and iPod are registered trademarks of Apple Inc.
*3 Bluetooth is a registered trademark of Bluetooth SIG, Inc. America *4 SRS CS Auto Sound System and SRS symbol are trademarks of SRS Labs, Inc.

3

Savour abundance within.

The Subaru Legacy cabin immerses you and your passengers in modern comfort with an interior that's even more refined and technology that keeps you connected without being distracted. Upgraded with an improved layout, you'll discover that the Legacy has every feature you need within reach—as well as ones you didn't realize you needed.

1 High-grade Multi-function Display

Stay fully aware for confident and efficient driving. Located conveniently in the instrument panel, the display shows you time, temperature, self-check maintenance alerts, and safety information such as Vehicle Dynamics Control (VDC) monitoring. It also features an advanced environmental performance and efficiency display that keeps you apprised, and allows you to totally track your fuel efficiency—even allowing you to compare the efficiency of different trips.

2 Enhanced rear vision. Easier parking.

A Rear Vision Camera System is standard on 2.5i, 2.5i Sport and 2.5GT Sport models. When the driver shifts into reverse, the camera displays a live colour image on Legacy's in-dash display, along with guidelines to assist in parking manoeuvres.

3 SI-DRIVE* and Cruise Control. At your fingertips.

Whether a spirited drive or leisurely cruise, you set the pace. Maintain a preset speed on the open road with standard electronic cruise control, and choose the engine response you desire with SI-DRIVE*. Both can be controlled with the elegant, metallic-finished buttons on the steering wheel.

* Standard only on 2.5GT Sport model.

The inner ability to accommodate.

As versatile as you are, the Legacy offers quick and easy design solutions to accommodate many situations. Whether you're sporting the Sedan or Station Wagon, the smartly designed suspension allows for road-handling performance as well as a flexible cargo area that can comfortably fit four 9-inch golf bags.

Loaded with inspiration.

Legacy Station Wagon combines the road-handling performance of a sport Sedan with expanded cargo-handling capacity. Its smartly designed suspension allows for a flexible cargo area, as well. Levers mounted in the rear allow you to easily release the 60/40 split-folding rear seats for easy access. And shopping bag hooks round out the thoughtful details.

Versatility with security.

Legacy Station Wagon's retractable cargo cover helps to keep luggage out of view and away from sunlight. With lightweight yet sturdy aluminium construction, the cover is easily removed to make way for larger cargo when the rear seats are folded down.

Places for life's little things.

Thoughtful engineering is evident throughout the spacious cabin of the Legacy. A roomy console includes a 12-volt power port and padded armrest lid. There are also pockets in the front seatbacks, four cup holders, and generous front and rear door pockets, each with its own bottle holder. Sedans also include a trunk-through in the rear centre armrest.

In control. Out of danger.

What's inside:

Legacy's all-wheel drive traction, natural agility, and active safety systems are always ready to help step around danger that comes your way.

What it does:

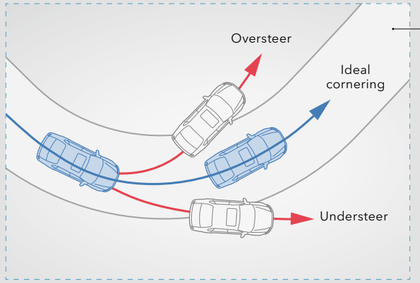

Since we know the best way to survive an accident is to steer clear of it, a confident and quick reaction helps keep you out of harm's way.

Active Safety, to avoid a collision.

Many of the same features which make a Legacy fun to drive also keep its occupants out of harm's way. The stable, responsive handling of its Symmetrical AWD is enhanced by the low centre of gravity of its SUBARU BOXER engine. Its available Vehicle Dynamics Control System, sure-footed suspension, 4-wheel antilock brakes, Traction Control System, and quick steering equip the driver with excellent evasive abilities.

Braking System

The standard 4-wheel disc brakes feature lightweight aluminium rear calipers and a strong, reassuring brake feel. The Antilock Braking System (ABS) includes Electronic Brake-force Distribution, to reapportion front/rear braking pressure when the vehicle is loaded. To ensure maximum braking during an emergency, the Legacy features both Brake Assist and Brake Override. There's also Subaru Hill Holder that helps prevent rollback when starting off on a 5% or steeper grade, by applying the electronic parking brake and automatically releasing it once you're underway.

Vehicle Dynamics Control System

Standard in every Legacy, Vehicle Dynamics Control monitors and analyses if the vehicle is following the driver's intended course via an array of sensors. If the vehicle approaches the limits of stability, the AWD torque distribution, engine output and brakes at each wheel are adjusted to assist in keeping the vehicle on course.

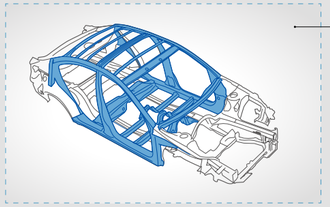

A deeper sense of safety.

What's inside:
Legacy's smart construction is partnered with advanced technologies to deliver substantial protection upon impact.

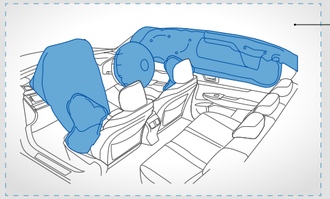

What it does:
In the unfortunate situation that a crash is inevitable, you always know you and your passengers are in capable hands.

Passive Safety, to better survive a collision.
At Subaru, there is never an end to the pursuit of safety. We constantly set high standards, and Legacy is designed with occupant protection as a high priority. Its body structure is intelligently strengthened in critical areas to help minimise the impact energies that reach the cabin. Front SRS* airbags, front-side, curtain and knee SRS* airbags, whiplash-reducing front seats, and 3-point seatbelts all around help protect occupants.

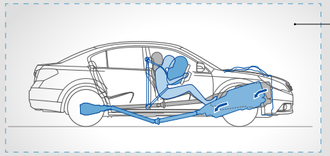

Pedestrian Protection
Legacy was designed with the objective of providing a high level of pedestrian protection. Shock-absorbing space between the bonnet and engine helps to reduce pedestrian injury in an accident, as do an energy-absorbing front bumper and a specially designed area around the windshield wipers.

Ring-shaped Reinforcement Frames
The Ring-shaped Reinforcement Frames strengthen the passenger cabin from the roof to the doors, pillars and floor. This design helps divert and dissipate impact energy from the occupants in a collision. The front crumple zone is integral to the frame.

Seats, Seatbelts and SRS* Airbags
Standard on every Legacy are front SRS* airbags, plus front-side SRS* airbags and curtain SRS* airbags. Also, knee SRS* airbag greatly increase the protection of the lower extremities of front passengers in frontal impacts. Height-adjustable front seatbelts feature pretensioners to hold passengers firmly in place, and load limiters that ease peak forces to the chest.
In a rear collision, front seats utilise rigid frames, firm headrests and such details as energy-absorbing mounting of the inner seat springs, all to help reduce the chance of whiplash.

Break Away Engine
Every Subaru goes above and beyond common practice when it comes to your safety.
In the event of a head-on collision, your Legacy's SUBARU BOXER engine and gearbox are designed to absorb the impact and break away from the cabin for your protection.

* SRS: Supplemental Restraint System. Effective when used in conjunction with seatbelts.

Satin White Pearl

Thoughtfully equipped inside and out.

Auto On/Off Headlamps*1

A light sensor turns on the headlamps automatically at dusk, and shuts them off when you remove the key from the ignition.

Headlamp Washers*2

Pop-up washers use a high-pressure spray to help keep the available HID headlamps at their peak performance in poor weather.

Front Fog Lamps

Multi-reflector fog lamps emit a wide, flat beam that reflects less glare in fog, for added safety.

Automatic Rain-sensing Windshield Wipers*1

Available automatic windshield wipers detect rainfall on the glass and adjust their wiping intervals and speed accordingly.

4-way Steering Column

To help set your optimum driving position, the adjustable steering wheel tilts up-down and telescopes in-out.

Keyless Access with Push Button Start*1

Available Keyless Access with Push Button Start lets you unlock, start and drive your Legacy without taking a key from your pocket.

Dual-zone Air Conditioning

All models feature dual-zone automatic climate control with a digital display and one-touch defrost mode for the windshield.

Electronic Parking Brake

Push button parking brake is easier to operate and takes up less space than a pedal or lever, and it's right in reach with its convenience centre console location.

Power Glass Sunroof*3

The large, internally sliding sunroof with manual sunshade delivers a panoramic view and fresh breezes for front and rear passengers.

18-inch Aluminium-alloy Wheels

Legacy 2.5i Sport and 2.5GT Sport models are equipped with multi-spoke 18-inch aluminium-alloy wheels and 225/45R18 high-performance tyres.

17-inch Aluminium-alloy Wheels

Legacy 2.5i model features elegant 17-inch wheels paired with tyres designed for secure grip and quick response.

16-inch Aluminium-alloy Wheels

Standard on Legacy 2.0i, these 8-spoke alloy wheels are generously sized to suit Legacy's genuine sportiness and style.

Illuminated Vanity Mirrors

Lighted and covered vanity mirrors are provided for both the driver and front passenger.

Overhead Storage Console

Among Legacy's many storage areas is this ceiling mounted console with room to keep small items within easy reach.

Power Driver's Seat*3

10-way power driver's seat includes power-adjustable lumbar support. On models with leather interior, 2-seat position memory function and a key linked memory function*4 are included.

Rear-cabin Vents*3

Legacy models with leather interior include adjustable rear-cabin air vents in the console between the front seats.

*1 Standard on 2.5GT Sport.
*2 Standard on 2.5i Sport and 2.5GT Sport.
*3 Optional on Sedan 2.0i, standard on 2.5i, 2.5i Sport and 2.5GT Sport models.
*4 Memory function is optional on Sedan 2.0i, standard on 2.5i, 2.5i Sport and 2.5GT Sport models. Key linked memory function is standard on 2.5GT Sport only.

Accessories

Personalise your ride.

Whilst every Legacy comes generously equipped, Subaru accessories are the perfect way to tailor your Subaru to your life and your style. Whether you want to add convenience, enhance functionality, or personalise your Legacy's appearance, Subaru accessories are designed to provide the same fit and quality as your Subaru vehicle. For more details, ask for the accessory brochure or visit your nearest Subaru dealer.
