SUBARU

Confidence in Motion

AMAZING

JUST GOT BETTER.

THE NEW OUTBACK

PRODUCT FEATURES

A Active Grille Shutter

A shutter has been provided on the bumper grille that opens or closes according to the vehicle state. The shutter remains closed unless a strong blast of cooling air is needed, reducing air inflow and air resistance, and improving fuel economy. The shutter is controlled on the basis of the engine oil/water temperature, and opens/closes automatically.

B Power Rear Gate

At the push of a button, the power rear gate gives you instant access to the cargo area making it especially easy to load up and go.

C X-Mode

Drivers of any skill level can experience outstanding all-terrain performance even on slippery or muddy roads at the touch of a button.

D Premium Audio System

Equipped with a new premium sound system designed to provide superior quality sound, delivering high quality audio presence matched to the ride and performance of the Outback.

TECHNOLOGY

Subaru has always insisted on delivering an enjoyable driving experience, backed by a sure sense of safety and reliability. We believe that our proprietary technologies, the All-Wheel Drive and Subaru Boxer engine are ideal as the base platform for our vehicles. Understand and discover why we continue to refine these elements in the quest for unparalleled driving pleasure.

Ⓔ

Ⓕ

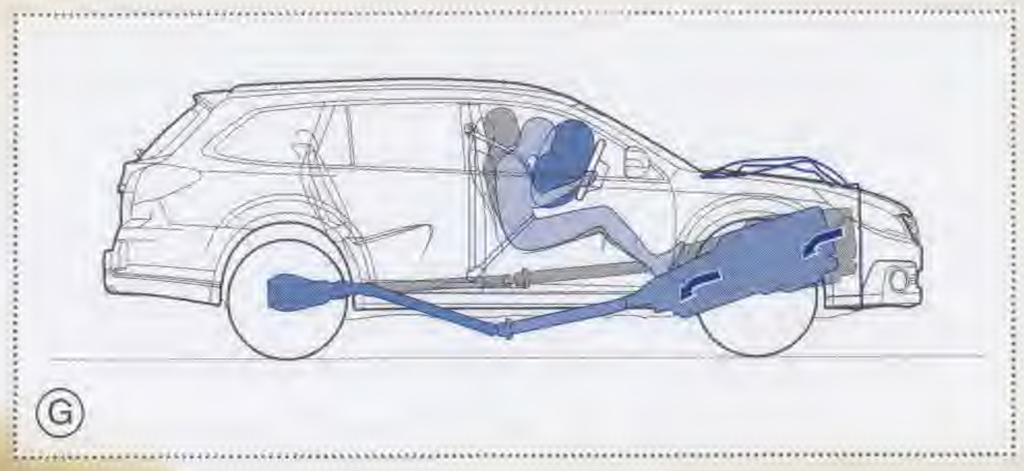

Ⓔ All-Wheel Drive

AWD systems distribute power between all four tyres in a balanced manner. This creates the most neutral handling possible, as there is no loss of grip in the direction that the vehicle is travelling, even if the vehicle is cornering. If one wheel starts to lose traction on slippery road surfaces, the other three driving wheels can provide the required traction to compensate, giving the driver greater peace of mind.

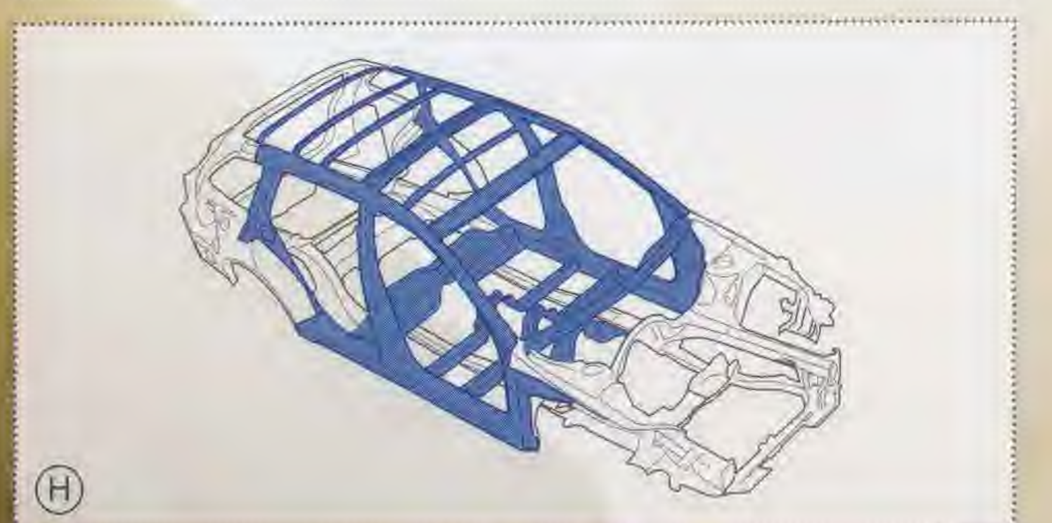

Ⓕ Boxer Engine

Combining balance with power and efficiency, Subaru's Boxer engine provides excellent acceleration response with a high level of torque even at low speeds. Already in its third generation, Subaru's highly acclaimed Horizontally-Opposed engine now features a long stroke design for better fuel efficiency. The Boxer engine's layout allows the engine to be positioned inline with the drivetrain for maximum transfer of power. With pistons moving horizontally, this engine has a flat, low profile, which provides a lower centre of gravity than other designs for quick handling response and confident cornering.

SAFETY

Ⓖ

Ⓗ

The Outback is designed to protect its occupants with a series of advanced systems and features, balancing rigid strength with controlled deformation in key areas to better manage impact forces.

Ⓖ Break-Away Engine

The Boxer engine is designed to collapse underneath the passenger compartment in the event of a high speed frontal impact, hence reducing occupant injuries.

Ⓗ Ring-shaped Reinforcement Frames

Strengthens the passenger cabin from the roof to the doors, pillars and floor. This design helps to divert and dissipate impact energy away from the occupants in a collision.

SPECIFICATIONS

DIMENSION & WEIGHT	
	2.5i-S
Length / Width / Height (mm)	4,815 / 1,840 / 1,675
Wheelbase (mm)	2,745
Tyre Size	225 / 60 R18
Kerb Weight (Kg)	1,595 ~ 1,624
Ground Clearance (mm)	213

ENGINE	
Type	DOHC 16-Valve, Horizontally-Opposed, 4-Cylinder, 4-Stroke, Petrol Engine
Displacement (cc)	2,498
Power (PS / rpm)	175 / 5,800
Torque (Nm / rpm)	235 / 4,000
Fuel Tank Capacity (L)	60

CHASSIS & SUSPENSION	
Transmission Type	Lineartronic
Brakes (Front / Rear)	Ventilated Disc Brakes
Suspension (Front / Rear)	MacPherson Struts, Lower L-Arms / Double Wishbone, Stabilizer Bar

EXTERIOR			
Front Fog Lamps	Power Sliding Glass Sunroof	Power Folding Door Mirrors with Built-In LED Turn Signal	Intermittent Rear Window Wiper
Roof Rails	Roof Spoiler		

SAFETY			
Engine Immobilizer	SRS Front, Side and Curtain Airbags (and knee airbag for driver only)	Vehicle Dynamics Control System (VDC)	Height Adjustable Seatbelt Anchors (for driver and front passenger)
4-Sensor / 4-Channel ABS with Electronic Brake-Force Distribution	Front Seatbelts with Pretensioners and Load Limiters	ISO-FIX Adapted Child Seat Anchors (with tether anchors)	Active Torque Vectoring
Side-Door Reinforcement Beams			

FUNCTIONALITY & CONVENIENCE			
Cruise Control	Electronic Parking Brake	Paddle Shift	Multi-Function Display
60/40 Split Folding and Reclining Rear Seats	Bluetooth Compatible Hands-Free System	Keyless Access and Push Button Start System	Premium Audio System with 1 CD and 6 Speakers
Tilt-Adjustable / Telescopic Steering Wheel	12-Volt Power Outlet (in the centre console box)	Power Adjustable Seats (driver and front passenger)	Dual-Zone Automatic Air-Conditioning System with Anti-Dust Filter
Side Sill Step	Hill Hold Switch	X-Mode	Power Rear Gate
Steering Wheel Mounted Audio Satellite Switches	USB and Auxiliary Audio Input Jack (in the centre console box)		

Specification data and model lineup may vary according to market.
