CO_2 emissions (combined cycle)	189g/km	253g/km
CO_2 emissions (urban cycle)	216g/km	348g/km
CO_2 emissions (extra urban cycle)	174g/km	199g/km
Regulation	Euro 6	Euro 6

M

Maserati has a history of naming its cars after the world's most famous winds. It started in 1963 with the legendary Mistral. Then came the Ghibli, the Bora and the Khamsin. And now the Levante joins the Maserati hall of fame. The wind that bears its name blows across the Mediterranean and can change from benign calm to gale force in an instant. The Maserati SUV has a similar nature, although its powerful forces always remain under perfect control. In true Maserati grand touring tradition, nothing can disturb your comfort – whatever the speed, whatever the distance.
This vehicle, for instance, can reach 100 km/h from a standing start in an astonishing 5.2 seconds. At the same time, you are carried in the elegantly appointed, perfectly balanced luxury of a large and spacious SUV. Even when the going gets rough, the Levante maintains its elegant composure thanks to our intelligent Q4 AWD system.
There are two trims available for 2018: the Levante GranLusso and the Levante GranSport. With the GranLusso, the styling and trim are more focused on luxury. With the GranSport, it's more about directly engaging dynamics. Each offers important new advanced driver assistance features, a significant power boost for the Maranello-built V6 petrol engine and an innovative new power steering system.
A new journey has begun – with the Maserati of SUVs.
