NEW JAGUAR F-TYPE

THE ART OF PERFORMANCE

EXTERIOR DETAIL

POWERFUL FORM

Rising vertically from the front spoiler and running up through elongated headlights, F-TYPE's beautifully flowing body line begins to take shape. The line arcs over the front wheel, descendingelegantly as it runs across the door, before culminating in a pronounced muscular rear haunch. Whether you choose Coupé or Convertible, F-TYPE leaves you under no illusion – this is a high performance sports car, the latest in a distinguished bloodline.

LED HEADLIGHTS

SIGNATURE DESIGN | ENHANCED ILLUMINATION

Even at night, F-TYPE stands out. Its new LED headlights* featuring LED 'J' blade Daytime Running Lights are as powerful as they look. These headlights reach further into the darkness than previous generation units, producing a highly focused beam of light.

LED headlights feature Adaptive Front Lighting. It automatically provides the best possible illumination by adjusting the low beam according to your speed and the weather conditions.

City Mode
A wider beam than a standard low beam to help you see pedestrians and turnings more easily in built-up areas.

Country Mode
A low beam that is narrowed and extended, in comparison to City Mode, to offer better illumination for country driving.

Motorway Mode
A longer and narrower beam than Country Mode to improve long range visibility. The low beam is raised to extend illumination further down the road.

Bad Weather Mode
Adjusts the intensity of the low beam to minimise glare from reflections while still offering strong illumination of the road ahead. It is only activated when the windscreen wipers are in continuous operation.

LIGHTWEIGHT SEATS

COMFORT AND SUPPORT

F-TYPE's new Sport and Performance seats have been engineered with sports cars in mind. The lighter magnesium construction of the seats saves over 8kg* of weight compared with previous generation models. Their streamlined form takes up less space enabling a greater range of seating positions. Performance seats provide increased lateral support during dynamic driving and the option of cooling for greater comfort.

LUGGAGE SPACE

408 LITRES

We have designed the loadspace of F- TYPE Coupé to create a sports car that fits every lifestyle. With a capacity that is competitive with some well-known family hatchbacks – up to 408 litres certainly has the space to accommodate two generously sized suitcases for a weekend away.
