PERFORMANCE ENGINES

INGENIUM ENGINE

INGENIUM DIESEL FROM
99g/km CO_2

XE is offered with diesel engine: the 2.0 litre 4-cylinder turbocharged diesel (180PS) producing 430Nm of torque respectively. Ingenium is Jaguar Land Rover's new breed of engine designed for effortless performance, refinement and efficiency. With advanced technology and all-aluminium construction, Ingenium delivers impressive fuel consumption and CO_2 emissions. Up to 20kg lighter than equivalent previous generation engines, Ingenium is intrinsically more efficient. And intelligent too – computer controlled, adaptive engine cooling only engages as required. The latest generation variable geometry turbocharger maximises peak power for low speed torque and responsiveness that is uniform, progressive and avoids lag. Internal friction – the enemy of performance and efficiency – is up to 17 percent lower in the Ingenium range than previous generation engines.

KEY FEATURES

ADVANCED AERODYNAMICS

ADVANCED AERODYNAMICS | HIGHLY EFFICIENT

XE's form has been rigorously optimised for aerodynamic efficiency and stability. With a drag co-efficient as low as Cd 0.26, XE cuts through the air – reducing fuel consumption and lowering emissions. Every element exploits the exterior's maximum aerodynamic potential while preserving XE's stunning proportions. Vertical apertures in the front bumper's outer edges channel air through vents in the wheel arches and out over the front wheels. Even the race car-inspired underbody protection and diffuser is designed to make XE as efficient, economical and refined as possible.

AUTOMATIC TRANSMISSION

EIGHT-SPEED AUTOMATIC TRANSMISSION

XE's automatic transmission is highly responsive, smooth and efficient. It delivers rapid shifting for effortless acceleration and overtaking.

The JaguarDrive Control offers even quicker shifts and sportier kick-down in Dynamic Mode, and earlier up-shifts in Eco Mode. With the automatic transmission the driver can opt to manually control gearshifts, via steering wheel paddles, at the touch of a finger.
